by country lovers of all ages*

SAMBO & SUSAN and other tales

By Katharine Harrison-Wallace

The 1930s classic is back!

Capturing a host of country characters - amorous horses, fox and huntsman and a disobedient salmon - ***SAMBO & SUSAN and other tales*** is a collection of charming, illustrated cautionary stories from the bright and talented imagination of 12 year old Katharine Harrison-Wallace in 1938.

A joy to adults and children alike, with a foreword from her distinguished Godfather, the Duke of Atholl, young Katharine's tales developed something of a cult following when first published. Today first editions are scarce and fetch prices that the 12 year old Katharine would not have believed possible.

Now republished as a limited edition hardback, this faithful reproduction has given Katharine's delightful book a new lease of life. Proceeds from the book's sale will go to the hunt Staff Benefit Society (HSBS) – a registered Friendly Society overseen by its patron HRH The Prince of Wales, and benefitting the staff without whom hunting could not exist.

As a stalwart of the hunting world, hunting up to three days a week in adulthood, Katharine would have approved.
